

Crochet Tube Component for Pathway Project

Single crochet – J hook or larger

Questions? Michelle Lougee plarnartplanet@gmail.com

Fold back the end of the plarn to make a loop and chain 20 and join the circle by inserting the hook into the first loop, yarn over and pull through.

Now single crochet (through, yo, back, yo back through two loops on hook) into each stitch as you continue around making a tube. Tube length can vary between 15-30 rows.

One end of each tube can be sewn together (with plarn) in a Y shape.
